Welcome to Mclver's Happy Acres Private Bull Selection Day

Mclver's family is rich in past generations of family farmers and beef producers. David and Scott Mclver have a solid breeding program wrapped around forages that the farm produces and selecting cattle that excel and push the scales.

Scott Mclver says he loves the way polled Hereford and Salers complement each other, and an F1 female can't be beat in a commercial herd. David Mclver added, "We have a short growing season, so our cattle have to perform--no excuses, that's why we know our cattle would excel in milder climates."

Our Hereford Breeding Program is built around the Remittal's of Canada. We have just recently added a new herd sire prospect from them that we think will be something to talk about in the future. The Salers Program focus has been to move in the direction of black hide, low birth weight, while not losing the heavy pay weight at one year of age. Working with two maternal breeds has been a fun and rewarding challenge.

Please join us March 9th. Come early and plan on lunch with us. Give us a call if you have any questions. You can also call J.R. Adcock, our sale consultant, if you need further assistance.

HE
SELLS

No bulls will be sold prior to March 9, 2013.

Bulls will be divided into three pens: good, better and best and priced accordingly. At Mclver's, our family enjoys private treaty bull sales and we will continue that tradition. However, too many of our local customers have asked us to make sure they get a chance to have first pick. So, we have decided to kick-off the spring bull sales with bull selection day. Our Hereford and Salers bulls will be available for viewing on March 9.

Hope to see you on March 9!

Sale Procedure

The bulls will be available for inspection Saturday, March 9, at McIver's Happy Acres. The morning of the 9th bull lot numbers with corresponding prices will be posted. Starting prices for the majority of our bulls will be \$2,450, \$2,950 and \$3,850. If you want a bull you write your name or buyer number (which you get at the farm) beside the lot number. If you want a bull that has a name or number already beside it, you put your mark with \$100 higher bid beside that. At 2:00 p.m., any last bids will be taken orally, with each bull selling to the highest bidder. We recommend bidding early so you have time to bid on a second choice if needed. Unsuccessful bidders may bid on any other bulls. Any remaining bulls are then for sale--first come, first served at the posted price. Settle up at the farm. We will take bids anytime but nothing sells until 2 p.m. Saturday the 9th. If there are any questions, don't hesitate to ask.
